### Helpful Tips

**Shoes:** You will want to have the following types of shoes for your week of camp: **1)** Good walking shoes (tennis shoes). We have a large property and during camp you will almost exclusively be walking to everything. There are also several activities that need a closed toed shoe. Please don't bring a new pair of shoes for this, breaking them in during camp will not be fun! **2)** Water shoes (sport sandals also work). We will be in the pond or creeks several times and a good water shoe will make it much more enjoyable. **3)** Camp shoes. (Tennis shoes, sandals, or flip flops) These are your backup shoes. If you got your walking shoes muddy, and your water shoes need to dry, you can wear these around camp in the evenings while your other shoes dry.

**Parents picking up:** Campers are going to have an awesome time at camp, and that usually entails getting fairly dirty. I recommend bringing an extra change of clothes or towels (when you come) to protect the car and a trash bag for the clothes. Disclaimer: I can't guarantee the extra clothes will stay clean if you leave them with the camper for the week.

**DO NOT BRING:** Cell phones, **watches**, mp3 players, knives, video games, spending money, two-piece swim suits (modest Tankini's are appropriate), strapless/ tank tops, food, or clothing with questionable pictures or slogans.
